

## **SHORT CV**

Eugenia Koleza is Professor of Mathematics Education at the Department of Educational Sciences and Social Work, University of Patras, Greece, since 2009. She has graduated from the Department of Mathematics, University of Athens and has acquired her PhD from the IREM of the University Louis Pasteur Strasbourg, France. She is the author of 9 textbooks. She has published in peer reviewed journals and conference proceedings. She is director of the “Laboratory of Mathematical and Physical Sciences” in the Department of Primary Education. The Laboratory acts as a link between University and in service teachers, involving them in research projects and research seminars and through the creation of communities of practice. The aim of these communities of practice is the professional development of pre- and in service teachers. She is a member of the coordinative committee of the postgraduate program “STEM Education and Educational Robotics Systems”. Her main Research Interest is Learning Mathematics by Design: Curriculum and Assessment, and the Investigation of Psychological and Sociocultural parameters in mathematical teaching and learning.
